Baking Helps

Valuable Suggestions

By Mrs. Nevada Briggs, Exponent of the Art of Baking, as taught by Mrs. Janet McKenzie Hill

Helpful Cake Making Hints

Always sift flour and KC Baking Powder at least three times. The more sifting, the lighter the cake. Remember that! To cream but ter and sugar quickly, warm the sugar slightly. Beat yolks of eggs with rotary beater. Whip whites of eggs with flat spoon whip. Water makes lighter cakes; milk makes richer cakes.

To mix a cake, first cream butter and sugar thoroughly, then add volks, if used. - Then alternately add moisture and flour that has been sifted with baking powder and stir until smooth and glossy, adding egg whites after thoroughly

Always use K C Baking Powder. Biscuit Helps

Always sift flour and K C Baking

Powder at least three times. Have shortening cold and firm. Mix dough as soft as it can be handled. The softer dough goes into the oven, the lighter the biscuit when it comes out. It is easier for K C Baking Powder to do its work in soft than in stiff dough. Mix biscuits very little. De not knead. Stir up with spoon or knife and press in shape to roll

With K C Baking Powder results are sure and certain. Ask your grocer for K C.

on floured board.

I have two million feet of yellow pine timber grown on my ranch in Coconino county. My neighbors have several million feet more which I have an option on. I am forming a company to put a sawmill in and cut this timber and put it on the market |} at actual cost price to the stockholders in this company. Arizona has the largest yellow pine forest in the United States, and the Arizona home builder should have the benefit of it. I can produce all grades of yellow pine lumber at \$12.50 per thousand on cars at Maine, Arizona, or \$17.50 in Phoenix, and will put up plication to the office of Marshall a bond that I can do so. Here is the actual cost of producing lumber in Arizona:
